"Several of the aldermen have asked my position on the question," explained Mayor Welsh at the boginning of the meeting. "So I'll give you, my stand. In my opinion it i a reasonable request. Women now have the right of suffrage and share all the rights of a man, so it seems a reasonable request. Women how have the right of suffrage and share all the rights of a man, so it seems to me no more than fair that they should have power to serve on the police department. I believe a woman notice officer can do a great deal of good, especially in aiding the clinic."

Ald. W. Menzies presented the resolution for creation of the office and it was passed. § to 0. J. J. Dulin and E. H. Ranson being the two absent councilmen. Several of the women came prepared to give short talks but they were not called upon.

HUGHES WILL USE

Pleased With New Secre-

Hiram Johnson Among Those
Pleased With New Secretary of State.

My DAVID LAWHENCE.

Washington, Feb. 22—Senator Hiram Johnson, one of the leaders of the so-called "irroconcilable" group which has opposed the ratification of the Faris treaty in any form, as well as the entrance of the United States into the present league of nations, said today that the appointment of Charles Evans Hughes as secretary of state in the Harding cabinet was not at all displeasing to him.

"The appointment of Air, Hughes," remarked the California senator in a talk with the writer today, "is by no means unsatisfactory to me. I was not one of the group who opposed the appointment. As to international policies, I understand that Mr. Huges in one of his early talks with Mr. Harding endorsed the tentative policy which Mr. Harding has had in mind for foreign affairs.

Has Mind of His Own

"As to Mr. Kughes personally, I know he is an independent minded man. I liked particularly the way he denounced those republicans who expelled the socialists from the New York state degislature. I liked also the warm way in which he recently detended the direct primary system which is so much under attack. Acts like these in the face of the republican bosses show that Mr. Hughes has a mind of his own."

Generally speaking, men at the capitol, whether they have any personal enthusiasm or not for Mr. Huges, were frank to admit that in accepting the portfolio of secretary of state, Mr. Hughes had again responded to the call of service for the republican party and the country. Everybody here knows that Mr. Huges was reluctant to leave the supreme court of the United States to engage in a political campaign, and he was of course not anxious to go into the cabinet, which in a sense means a resumption of political burdens, for on no question is there just now such bitter feeling and sharp division of opinion as on foreign politicy.

He Thinks Straight nems, for on no question is there just now such bitter feeling and sharp division of opinion as on foreign pol-

now such other teams and preside.

He Thinks Straight

Entirely apart from Mr. Hughes' exceptional qualifications and preside, the selection of Mr. Huges has another significance that may not be immediately apparent but which will be revealed after Mr. Hughes has been in office a short time. Mr. Hughes thinks in straight lines. Ho will endeavor of course to meet the pledges which the republican party gave at Chicago, but he will work out a foreign polley in his own way. The fact that Schator Johnson of Caiffornia is pleased with the selection of Mr. Hughes does not mean that the new secretary of state has said something or is committed to some policy which is pleasing to the irreconcliable group in the senate.

On the contrary, an examination of Mr. Hughes' utterances on toreign policy shows that he has maintained a certain flexibility of viewpoint which will come in handy when the many factions of the republican party start pulling and hauling for their own theories. Hore, for instance, are the plain points which Mr. Hughes made on the covenant indicating the conditions upon which he might favor the present league of nations:

Use Treaty as Basis

Mr. Hughes has inclined toward the view that there was a substantial basis in the treaty of Verstalles, which could be utilized in negotiating a new understanding with Europe. Whether that amount of good in the treaty can best be retained by satisfying the pact with a new set of specific reservations, or by negotiating an entirely new treaty with Germany is the particular problem which Mr. Harding has asked Mr. Hughes to solva. Warehouse With Scores Seeking Work.

Hardship from unemployment was evidenced this morning when the De Forrest tobacco warehouse was opened for packing the crop of members of the Rock county association. Hundreds sought jobs, any kind of work at atmost any price.

Both men and women fairly, begged for an opportunity to work, although many of the men were skilled machinists capable of carning twice as much as they could in the warchouse. People besieged the warchouse either in person or by calling all day yesterday in an effort to get jobs.

Don't Depend on Spring Deliveries

Spring deliveries of Ford cars have never been certain, and they should not be depended upon. Demand has always been greater for Ford cars than the supply or production. So, if you would be sure of having a Ford car, buy it now while deliveries are possible. Don't wait—even next month is an uncertainty.

Only a limited, specified number of cars has been allotted to this territory. That allotment cannot be increased, because the demand all over the country is greater than the supply or production. Get your order in now, and you will be one of those who is sure of a Ford car out of our allotment.

It's first come-first served. All orders are filled in rotation. So, if you would be forehanded, if you would be certain of having a Ford car when you want it—then you will buy a Ford car now. A signed order with us is your protection. It is the result of the wisdom of looking ahead.

OFFERING EXTRAORDINARY

TONIGHT and WEDNESDAY OTIS SKINNER, in "KISMET"

With great pleasure we present to you America's Leading Romantic Actor. Otis Skinner, in "Kismet." This photoplay, "Kismet," is not to be classed as the average photo production, but is a Masterplece. Besides the leading role which Mr. Skinner is taking, it has a selected cast of 15 noted stage and movie actors and actresses. The stage settings, the gorgeous displayment of gowns, and other claborate surroundings in this picture could not be described as it would require several pages.

The manager takes pleasure also to announce for the three-day engagement of the above picture, that he has secured three young ladies from La Crosse, Wis., who will play with our regular orchestra, making a five-piece orchestra.

In the Mitchell case an interesting teral question is to be settled. When Mathew Solbran, shoriff, was shot and killed by Cattified Vocacii, Mitchell was appointed to the office of sherift out the unexpired term. At of the term Mitchell became the end of the form suctions according to a candidate for the office and was elected. The state law slates a sheriff cannot hold the office for two consecutive terms. The attorney general is alloged to have ruled Mitchell, a former urmy officer, could hold the office for his elected term and then later the opinion is said to have been reversed. The court must determine whether the sheriff is legally holding whether the shorit is legaly holding his office. M. G. Jeffris will oppear (for Mitchell.

A POLICEWOMAN FOR JANESVILLE. The women have gained a signal victory in the demand for a policewoman for Janesville, and the council has done well to accede to the request. There are many reasons for the appointment of a woman on the police force. We have here as woman on the police force. We have here as is one of the woman leading the work, is that what's merc, I'd learned a lesson—one that girls. 'It is plain that there should be a woman on these cases. Constant infraction of the laws which lead to a contempt for all law, makes for youthful delinguents. It is conceded that a woman would be more keen to look after cases of this kind than a man. It is in the very nature of things that this should be so. Appointment of a policewoman in Janesville is another forward

THE PRESIDENT'S OFFICIAL FAMILY. With the acceptance of the chiep place in

the cabinet by former Justice Hughes and the naming of Harry Daugherty as Attorney General, the cabinet of the president-elect is practically filled. No man has been mentioned new and heavy responsibility. Those boys are in connection with any place who has not going to be what the Army makes them. And been approved as a leader and competent with the possible exception of Mr. Daugherty. This is perhaps the weakest point of the whole official family. In the first place Mr. Daugherty is mightily disliked by a host of Ohio republicans. He is a lawyer after being a politician. He has been in Ohio politics most of his life since reaching his majority. He has generally been unsuccessful. He has tried to be governor. United States senator and reached for other places of importance, but has always failed. Early in the Ohio campaign he attached himself to the fortunes of Mr. Harding and it must be admitted was clever in the political manipulation that brought about the nomination of the Ohio senator. After that the people of the United States did the rest. The office of attorney general has been filled for some time with a politician first and a lawyer afterwards. We have had enough of that sort of an official. It is to be regretted that Mr. Palmer is to be succeeded by another politician who is secondly a lawyer.

GEORGE WASHINGTON.

If the Father of the country never said but one thing, never gave but one message to the people of the United States, his memory for that shouldbe ever a living thing. That is the warning against entangling alliances with foreign nations. We have steadily pursued the path hewn by George Washington and in pursuing that path have kept out of a thousand destructive difficulties. Washington knew how far we were removed from European polities and the diplomacy of the divine right and the traditions of thrones.

CHARLES HALL GAGE.

Gaily contact with humans entitles him. That Charles H. Gage had many friends is legion, and that he exemplified the Christian spirit of clean by the memory which will linger. He was a patriotic citizen and filled in to those channels left country's sake. It could be said the world is better for the life of such a fellow, sweet and tender in his thought for others, cheerful and humorous to the last-those left can cherish his

There is a regularly organized Soviet propaganda going all the time; a propaganda for the Kerensky kind of Russian government, a Polish propaganda, a propaganda for the Lithuanians against the Poles, and the Irish propaganda and most insidious of all, the never-ending German propaganda. That has Hughes is making.

Each club is in charge of a woman whose duty it is to provide the men with entertainment by giving dances and The soldlers may bring their women parties. The soldiers may bring their women friends and relations, if they have any, and if not the hostess provides the girls. The work is immensely popular with the men and also with their commanding officers. Generals Wood, Edwards, and many others have endorsed the work, and even called it indispensable.

Their endorsements are needed, because the work cannot go on unless Congress appropriates at least \$200,000 for the purpose. It is a small amount, but small items are just the ones that Congress likes to prune out of an appropriation bill. Hence the Army is conducting a vigorous propaganda to convince Congress and the people that this Bureau of Women's Relations, which is now being carried on with leftover war time conributions, ought to be made a permanent part of the Army. And their propaganda brings out some interesting facts about our peace time Army, and about soldiers and girls.

our present Army is an Army of boys, who have enlisted for the purpose of getting an education. There are exceptions, of course. The veteran 'hard-belled" is still a figure in the Army. But the great majority of the collisted men are boys from 19 to 22 years of age, who have been attracted by the widely advertised educational opportunities which the Army is now offering. These, in a word, are boys of college age, who could not afford a college education, and have joined the Army instead. Many of them are young

At Camp Dix, in addition to establishing a hostess house and importing a bevy of girls every Saturday from Philadelphia, and smaller bevics on other days from neighboring towns, the bureau has also arranged a unique club in Philadelphia for men from Camp Dix who are on leave. In this they have been assisted by several women prominent in Philadelphia society. Mrs. George W. Drexel has taken charge of the work and Mrs. Hapgood has given a large residence to he the home of the club. This club is capable of takin During a life time a man gathers friends and care of from 50 to 100 men, which is about all enemies to him in just such proportion as his the enlisted men that are to be found in Palladelphia from Camp Dix at a given time. These men certainly are coddled if you want to call it that, to judge by all reports. Quartered in one of the finest residences of the city, they are taken living and loyalty to his friends is demonstrated to dances, movies and the theater; they are introduced to pretty girls; they are, in a word, treated as guesis at a house party.

Joined the Army instead. Many of them are young ment who want education in mechanical and engineering lines. Many of them are young immigrants who want to learn the language and the history of their new country.

The point made by the Army—as represented by Miss Phipps—is that in advertising itself as an educational opportunity, and thereby getting the services of a lot of ambitious young men of the most favorite age, the Army has assumed a new and heavy responsibility. Those boys are going to be what the Army makes them. And probably no one will deny that the kind of feminine society they enjoy is one important factor in their making.

The commanding officers, while fully aware of this large, humanitarian view of the subject are compelled to consider the practical-phase of the matter first. They are primarily concerned with the effect of this hostess work on the morale of their commands, and it is from this standpoint that they endorse it. Work of this kind both dur-LUKE SIMMONS ON "WAR AND ETC." nope that these weekly importations can be not only continued but increased. For there are some, 10,000 soldiers at Camp Dix, and they bank the gymnasium 10 deep when the girls arrive, each seeking what is so hard for an enlisted man far from home to get—the companionship of a nice girl.

This movement to supply the Army with girls is a new thing, and it is in a critical stage. The work is being carried on through an Army orward is being carried on through and through the asked if making money was the only and the itching were limited to the thing men do.

It was just a youngster's question, but it struck more being the properties of this indoor winter than the orward is the time when a lot of well washed folks, too weil washed in many instances, find almost endiess picaurie in the bondoir pastime of scratching themselves. There are two distinct varieties of cleanliness. Clean cleanliness is an internal matter; dirty cleanliness is something less than skin deep.

People who find themselves scratching yet have nothing visible the matter with the skin, should give the bath tub a well earned rest. And cleanliness. I may add that the less victims of winter itch have to do with soap the

better.

In this hiernal pruritls or winter

In this hieraal pruritis or winter itch the skin shows no rash or cruption, unless some marks are produced by scratching. But the skin is abnormally dry and often rough. It lacks oil: it lacks moisture. It is a skin parched by indoor life in a climate drier than that of a desert by retual test. The more one bathes the more external heat is required to keep one comfortable in cold weather, and thus in the home where the temperature is kept soaring abnorfor, and thus in the hold abnormal temperature is kept souring abnormally high, and with a few degrees too much heat, from any source, it is practically impossible to maintain a reasonable humidity in the atmosphere. fatening a person with a run down constitution. What do you say about it? (W. C. B.)

ANSWER — Egg and milk is an unalatable mixture, to most tastes, and if not palatable it is not well digested. Ether is a good wholesome food. The egg is more complexely digested it taken cooked. I think it would be botter not to take such a food before regular menls, for that muy impair the appetite for better foods, like bread and butter, vegetables, meat. So far as we know, neither egg nor milk nor both combined is more strengthening than ofther foods. A run down constitution is scarcely attributable to insufficient food, in this country. New York, Feb. 21.-Officials of the Metropolitan Opera company de-clared Caruso's voice probably would be better than ever when he recovers because of his first long rest in 25

The council last night granted Mrs. Harvey's request for a leave, acting upon her recommendation that Mrs. Smith fill the office temporarily. She will take, an extended trip through the south. A request from Mrs. Florence Hewalt, 1922 Wall street, a graduate mrs. With 18 years' experience, that ishs be appointed, was laid on the table after a resolution had been offered to vote on both names. This was lost by a vote of 6 to 2, the council apparently feeling confidence in Mrs. Harvey's appointment of her own substitute. Mrs. Hewitt asked for the position, believing that Mrs. Harvey was going to resign. Eighty-eight visits were made by Mrs. Harvey during January, her anothly report shows, taxi and carfane bills amounting to \$4.20. She **ORANGES** Wednesday and

You did right in deciding not to invest in any German marks. Not that it wouldn't be a good investment for anybody else, but with your limited head for figures I wouldn't trust you to invest in two tent postage stamps. You'd be liable to bring nem back all cancelled to show the government had O. K.'d them. As an example of real thrift I want to point out to you that Senator Harding's inauguration is only going to cost \$1500. If that's all it takes to cover the expenses of introducing a new president of the biggest country in the world I don't see any reason why you can't run a small house for a week at some

lay forgotten in the little old trunk after it was taken to the attic. Mary Marie was happy—that girlhood of mine, after we came back to Andersonville. I can see now, as I look back at it, that Father and Mother were doing everything in their power to blot out of my memory those unhappy years of my childhood. For that matter, they were also doing everything in their power to blot out of their own memorles those unhappy years. To me as I look back at it, it seems that they must have succeeded wonderfully. They were very happy, I believe—Father and Mother.

Oh, it was not always easy—even I could see that. It took a lot of adjusting—a lot of rubbing off of square corners to keep the daily life running smootaly. But when two persons, are determined that it shall run smoothly—when each is steadfastly looking to the other's happiness, not at his own—why, things just can't help smoothing out them. It was a trying period—it must have been—for Father and Mother, in spite of their great love for me, and their efforts to create for me a happiness that would crase the past from my mind. I realize it now. For after all, I was just a girl—a young girl, like other girls; high-strung, nervous, thoughtless, full of my whims and fancies; and, in addition, with enough of my mother and enough or my father within me to make me veritably a cross-current and a contradiction, as I had said that I was in the opening sentence of my childish autobiography.

I had just passed my sixteenth birthday when we all came back to live in Andersonville. For the first few months I suspect that just the giory and the wonder and joy of living in the old home, with Father and Mother happy together, was enough to fill all my thoughts. Then, as school began in the fall, I came down to a normal living again, and became a girl—just a growing girl in her teens.

Really better than ready-made cough syrups, and saves about \$2.
Easily and quickly prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any draggist 2½ ounces of Pinex, nour it into a piut bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup, preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty threat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break severe coughs.

THREE HAPPY FACES --AND A HOME

CONTENTMENT is man's reward when he owns his home. It may have meant a struggle of years, but once acquired he assumes a feeling that the world is all right. This feeling is contagious and it spreads to his wife and children.

But you'll never know the genuine joy of living until you can say to yourself, "This home is mine." Especially is this true if you select your home in a well chosen neighborhood, plan it to your own ideas of comfort and protection.

With Lowered Cost Prevailing, No Family Man Should Be Without His Own Home

Similar Cost Reductions prevail in practically every line of building materials.

Now is the ideal time to let your building contract. See your Contractor at once and have him figure on your job. Take advantage of this fine weather and start your building program immediately. It is not at all certain that prices on building materials will stay as low as they are at the present time.

The cost of labor at this time, according to a previously published statement, published by the laboring men themselves, is as low as it will be for some time.

There is nothing you can gain by delay.

If you desire further information on building costs ask any contractor or building material firm in the city. They are all prepared to give you any information you may desire.

Thursday, February 24th JANESVILLE'S BIGGEST DOLLAR DAY

If your dollars were dated 1914 and you were buying with them in those days of before the war prices, you could not buy better qualities or get better values for the money than we offer in this big Dollar Day event. We have spent weeks in careful planning—we have taken every advantage of the many market changes and we congratulate ourselves on the splendid values offered for this one day sale. Our stocks are large but many of these items will not last through the day so we advise early shopping where possible. Every item offered here will be of the usual high standard quality that this store is noted for.

FAIRBANKS-MORSE "Z"

Big reductions in prices have just been announced on "Z" engines. Remember that one or more of these engines on your farm will lighten your labor and help you get more work done.

The manufacturers have accepted their loss—we have accepted ours. You've been waiting for just this opportunity to buy at lower prices. Now you can do it.

Come in soon and let us show you the "Z" and prove the quality, design and workmanship, which convinced a lot of our farmer friends in this community that it is the one farm engine to buy.

Meeting, Conditions

Dollar Day in Janesville has become one of the special days for some wonderful bargains. To the merchant it means disposing of odds and ends at a great reduction—to the customers it means a saving of money on many things needed for the home. In a Furniture Store there are very few articles that can be sold at a dollar, yet at the same time we are now offering our stock of furniture at prices marked down so low that you can save many dollars on your purchase.

We invite you to come in, get our prices. We are sure you will profit by doing so if in need of Furniture.

ONE OF MANY

You have undoubtedly heard of the late Jim Hill's famous farm in Kittson Co., Minn. This locality is conceded to be one of the very best sections of the Red River Valley. Part of this famous farm was sold to a resident of Grand Fórks, N. D., and we are making him a loan of \$10,000.00 for five years at 7% interest secured by a first mortgage on 320 acres. We sent our special examiner, Mr. F. G. Nellermor, to make an examination and appraisal of the security back of this loan. He reports as follows:

Farm buildings \$ 7,800.00 \$ 320 acres of land \$ 32,000.00 \$ \$39,800.00.

Ratio of Loan to Security 25%

When you stop to consider that so far as actual production is concerned these Red River Valley farms actually produce more than lands in other localities selling at from \$200 to \$300 per acre, you will agree with us, that they are entirely all right.

This is a description of only one of our many farm mortgages, equally as well secured, and from good territories. We can suit you as to amount and have them from \$1200 and upwards.

If this security and interest rate appeals to you, come in and look over other loans and see if you do not find just what you want.

Golden Eagle Levy's This Is Our Greatest Dollar Day

ONE DAY Thursday, Feb. 24

So thoroughly advertised for value-giving have our Dollar Day Sales been, that it is per haps useless for us to say too much in praise of this sale. But we do wish to state that the bargains we offer on this day, far surpass anything we have offered before. We also wish to state that we will avoid Comparative Pricing as much as possible as the prices we quote will be so much less than they have been, that they might seem ridiculous to you and it's almost impossible for us to make them. But kind friends, we are not going to deceive you, Whatever we advertise, we have—and no matter how low the price may be, you can get it at the price advertised as long as the stock lasts.

Did you ever buy Silks like these for \$1.00 yard? WE SAY, NEVER!

We might say that there is not one yard of this silk that can be bought today at wholesale at the present market price for less than \$1.25 up to \$2.00 per yard. That the values will be appreciated there is not a shadow of a doubt. And the Silk Department will be rushed as never before. Owing to the exceedingly low price of this silk, we are obliged to limit sales, not over 10 yards to any customr.
